1/ People who chose only one race and it was an "Asian" race. An "Asian" is a person having origins in any of the original peoples of the Far East, Southeast Asia or the Indian subcontinent.

2/ People who chose only one race or people who have chosen two or more races, one of which is an "Asian" race. Numbers for the detailed Asian race groups may add to more than the total Asian population, and the percentages may add to more than 100 percent because individuals may be of more than one detailed Asian race. For example, a person indicating "Filipino *and* Japanese *and* Laotian" is included with the Filipino, Japanese and Laotian categories.

3/ For the Census 2000, in the category of "Race alone" for Chinese, there were 3 Taiwanese and in the category of "Race alone or in combination" for Chinese, there were 13 Taiwanese. There were no separate categories for "Chinese, except Taiwanese" and "Taiwanese" in the 1990 Census.

4/ For the Census 2000, in the category of "Race alone", there were 41 in the category "Other Asian, not specified" and in the category "Race alone or in combination", there were 143 in the category "Other Asian, not specified". For the 1990 Census, there was no separate category for "Other Asian, not specified".
